SPECIAL FEATURES

Omega 585 Synthetic Food-Grade Chain & Gear Oil is super formulation lubricant scientifically developed for food, beverage and canning applications.

- **Omega 585** features an all-synthetic formulation for a super-extended operating temperature range --- -30°C to 240°C (-22°F to 460°F).
- **Omega 585** stands up to the full range of food industry conditions from hot steam & cold refrigeration.
- **Omega 585** has a high-performance blend of additives that give extended lubrication intervals.

OUTSTANDING PROPERTIES

**Omega 585** is the synthetic food-grade chain and gear oil that:

- Contains absolutely no mineral oil, polycyclic aromatic hydrocarbons or any other potentially harmful ingredients.
- Is not undermined by contact with food-processing, canning or beverage-filling by-products such as citric and acetic acids, animal fats or blood products.
- Has minimal fling-off - stays tenaciously in place.
- Provides superior resistance to oxidation.
- Meets and exceeds USDA H-1 requirements.

USE FOR

**Omega 585** has been thoroughly inspected and tested for purity. **Omega 585** can be left on treated parts and does not have to be flushed or steam-cleaned off daily.

Use **Omega 585** for:

- Food Processing Equipment • High-Heat Bottling Equipment
- Canning Equipment • Cooking Equipment • Chillers
- Blowers • Cold Room Guides • Blast Freezing Equipment
- Ice-Making Equipment

Omega 585 can also be used for:

- Chains to Guides • Conveyors to Rollers • Motors to Hoists
- And virtually all types of gear drives found in food, beverage and canning operations under various operating conditions.
