## OMEGA ULTIMATE LUBRICANTS

## SPECIAL FEATURES

**Omega 909 Super Engine Oil Additive** is the "Proven Improver" that modern engines demand for top performance and older engines need to run efficiently.

- **Omega 909** features a unique package of 22 additives that includes Omega V.I.I. (Viscosity Index Improver) for unmatched lubrication characteristics.
- **Omega 909** is quality formulated to keep engines at their peak efficiency for extended periods – even under continual heavy loads.
- **Omega 909** coats and lubricates even "neglected" engine parts including valve guides, timing chains and piston rings.

## OUTSTANDING PROPERTIES

**Omega 909** is the super engine oil additive that:

- Immediately stops damaging engine oil contaminants for undermining engine performance.
- Ensures super lubricity to boost engine power for immediate and noticeable results.
- Prevents formation of carbon, varnish and tars for smoother, free-revving engine operation.
- Provides effective lubrication during engine start-up – the period of highest engine wear.

## USE FOR

**Omega 909** is super packed with a unique bundle of 22 additives that are scientifically blended to boost performance and prolong engine life. **Omega 909** has been successfully tested and proven in millions of engines worldwide in all types of conditions.

Use **Omega 909** for all types of gasoline (petrol) engines and diesel-powered equipment that uses recirculating engine oil.
